I can't believe that i miss you  
I can't believe that i care  
The first time that i mett her, somehow somewhere  
sha lalalala, we where morning light  
Sha lalalala, we where young

**\*CHORUS\***

Somehow i need you more then ever  
We where so young  
Somewhere between the worlds we living  
She looks scared

I've seen the light from your window  
A picture of us on the wall  
You made me walk in the shadows  
Filled whit the ashes of my soul  
Sha lalalala, we where morning light  
Sha lalalala, we where young

**\*CHORUS\***

Somehow i need you more then ever  
We where so young  
Somewhere between the worlds we living  
She looks scared

Somehow i need you more then ever  
We where so young  
Somewhere between the worlds we living  
She looks scared

I need you more then ever  
We where so young
