Where we go, when you're with me, I don't care  
Our destination from this falling star is one way  
This love that we found has got me walking in your light  
I knew it was real when all these pattern stars collide

When you say go-oh-oh  
My heart says yeah-yeah-yeah  
And let the world know-oh  
I'll be there till the end  
When you say go-oh  
My heart says yeah-yeah  
And let the world know  
I'll be there till the end

And I know that this hasn't been too easy  
But I like it when you do all you can to please me  
We took a chance on this thing we can't define  
It is real, now we're slowing space and time

When you say go-oh  
My heart says yeah-yeah  
And let the world know  
I'll be there till the end  
When you say go-oh  
My heart says yeah-yeah  
And let the world know  
I'll be there till the end

I've been waiting for ya...

When you say go-oh-oh  
My heart says yeah-yeah-yeah  
And let the world know-oh  
I'll be there till the end  
When you say go-oh  
My heart says yeah-yeah  
And let the world know  
I'll be there till the end

When you say go-oh  
My heart says yeah-yeah  
And let the world know

I'll be there till the end  
When you say go-oh  
My heart says yeah-yeah  
And let the world know  
I'll be there till the end

I've been waiting for ya...
