Summer time and I'm feeling fine  
Kissed by the sun in the sky  
Sparks fly when he walks on by  
Just like the 4th of July

He looks so beautiful  
That my legs get weak when I start to move  
And my heart can't help, what's going on  
When the DJ plays that summer love song, yeah  
That summer love song, yeah

Spin that record round and round  
Cause I can't get enough of that summer sound  
Let me hear that music  
Turn the bass way up and boom it  
And play that record 'til the sun goes down  
From the beach to the party to the underground  
Let me keep on grooving  
Put your hands in the air, keep moving

And come on baby sing along  
To that summer love song, yeah  
That summer love song, yeah

Friday night and it feels so right  
Cold breeze in the august sky  
He's got me burning up  
One look and I feel so hot

He drives me crazy  
I love it when he calls me baby  
And we dance to the stars in the moonlight  
To the summer love song that just feels so right

Oh baby

Spin that record round and round  
Cause I can't get enough of that summer sound  
Let me hear that music  
Turn the bass way up and boom it  
And play that record 'til the sun goes down  
From the beach to the party to the underground

Let me keep on grooving  
Put your hands in the air, keep moving

And come on baby sing along  
To that summer love song, yeah  
That summer love song, yeah

So baby take my hand  
You're all I'll ever need  
We can dance out in the sand  
Watch the sunset by the sea  
We can shine just like the stars  
The burn for you and me  
We can fall in love tonight  
Tonight

Spin that record round and round  
Cause I can't get enough of that summer sound  
Let me hear that music  
Turn the bass way up and boom it  
And play that record 'til the sun goes down  
From the beach to the party to the underground  
Let me keep on grooving  
Put your hands in the air, keep moving

Spin that record round and round  
Cause I can't get enough of that summer sound  
Let me hear that music  
Turn the bass way up and boom it  
And play that record 'til the sun goes down  
From the beach to the party to the underground  
Let me keep on grooving  
Put your hands in the air, keep moving
