"Hush If You Must"

Hush if you must if you must and addressed
And the power of your silence is the fear in compliance
Hush if you must if you must and addressed
And the power of your silence is the fear you'll come
out loud
Loud, loud, oh

I finally get a freelance fee because I'm
Not very adequate
Not very merry
Oh, I try
Not very tempting and
Not very pretty
But I'll get by

Hush if you must if you must and addressed
And the power of your silence is the fear in compliance
Hush if you must if you must and addressed
And the power of your silence is the fear you'll come
out loud
Loud, loud, oh

You come out loud
Oh loud
Loud
Oh loud, oh no
