Before the fools
Before this crazy life
Before you grew into a rusty knife
There was just me and you right at the start
Nothing back in those days could keep us apart
Something has changed it was like a hand on the clock
And now I don't know how to stop

I felt you there
Walking on moonlight
Your perfect face
Not much to fill
I want to care
But it's hard when you don't try
You'll never see
What you could have been

Beneath the stars
Over the frozen ice
You advance like a God
Each movement is so precise
But of all the crazy dumb things that we did
All of the dares we took as invincible kids

Nothing would leave a mark
Not even a scar
What have you done to fall so far?

I felt you there
Walking on moonlight
Your perfect face
Not much to fill
I want to care
But it's hard when you don't try
You'll never see
What you could have been

There was just me and you
Right at the start
What have you done to fall so far?
I felt you there
Walking on moonlight

Your perfect face
Not much to...
I want to care
But it's hard when you don't try
You'll never know
What you could have been
