This decade, discredited by  
Misuse and poor etiquette rhymes.  
This education we should thank you for wasting our  
Time.  
And for the interest in our dime.  
And now we'll only banter  
Questions with loaded answers.  
When it blows put it down and let go  
And don't dare ask me why.

Let's hear the generation speak frustation  
Let's hear the generation speak frustation

This tank set,  
To running dry,  
Distress it  
Drains like the orange eye  
This aggravation plantation farmed inside your mind  
Let's change the way because you know it's jive.  
Now will we only banter  
Questions with loaded answers.  
When it blows put it down and let go  
And don't dare ask me why.
