Well I took my lady to the top of a mountain  
We hung our feet over all creation  
And we agreed that the sight was beautiful  
And we agreed that tomorrow it'd be a memory  
And as far as we could see was all that we could be  
But the land had seen lovers come and go  
Life is where you are  
She said think about the greatest day in your life  
A day you were longing for the sun to rise  
You said hey this is life I've been looking for  
And you groaned as the shadows fell on the floor  
And up on that mountain we saw our days  
Rise like a vapour and float away  
Life is where you are  
Talking about L I F E  
Think of all the times think of all the times  
When you've dreamed of being somebody somewhere  
in another time  
And you closed your eyes and been swallowed by sleep  
And your secret desires they rise from the deep  
You say I wish I was somebody someone else  
'Cause life looks real from where they are  
Life is where you are  
Talking about L I F E  
We're all looking for security  
It's the basic drug of human need  
I've lost faith in things that fade  
Or things that get stolen or get taken away  
And up on that mountain we saw our days  
Rise like a vapour and float away  
Life is where you are
