Precious flower in my hand  
I wanted love always at my command  
But in you saw a freedom light  
That I could smother if I hold on tight  
So say what you want  
Do what you can  
But save the best for me  
You're my home you're my resting place  
The shadow where I hide this face  
You have opened up the freedom door  
I know you well but I'm wanting more  
So be who you are  
Do what you will  
But save the best for me  
I feel your love washing over me  
You're here with me  
Healing water wash over me  
You're here with me  
So say what you want  
And be who you are  
Do what you will  
But save the best for me  
I'll save the best for you
