I see your firm body, right in front of me
I reach out to touch you, baby don't tease
Now your body's all glistening
I'm starting to sweat
Don't you hear my heart pounding
From what I'm hoping to get

It's in our nature, don't you know
I need your body, to touch my soul

Chorus

Your lickin and lovin is all that I need
I'm wishin I'm hoping I'm down on my knees
No pushin or shovin no foolin Åround here
I gotta have you, babe I've gotta have you

Your lickin and lovin is all that I need
I'm wishin I'm hoping I'm down on my knees
No pickin or kickin I'm begging you please
I gotta have you, babe I've gotta have you

All bets are all off girl, get our bodies in play
I feel my motor racing, It's my lucky day
I'm getting kinda faint now, catch me if I fall
Help me out baby, I gotta have it all

It's in our nature, don't you know
I need your body, to touch my soul
