I'm sittin' in your heart  
I'm layin' in your bones  
So anytime that we are apart  
You can hear me whisper

Loving you is easy  
Loving you is not hard  
All I really wanna do  
Is keep loving you

I'm sure you've always known  
We'd make a perfect pair and I'd always care for you  
So I put our sweetest moments in a frame  
And stare at them as they freeze

Loving you is easy  
Loving you is not hard  
All I really wanna do  
Is keep loving you

There ain't nothing fancy to it  
Since the first time you smiled I knew it  
I couldn't mess it up if I tried to

Loving You is easy  
Loving you is not hard  
All I really wanna do  
Is keep loving you  
Is keep loving you  
Is keep loving you
