

Bryyce "Our Year"

Visit "[Our Year](#)" on MotoLyrics.com

I've been in it for a while
They say it just begins but it really ends now
Ehe, ehe, ehe, ehe listen

[Hook]

I've been in it for a while
They say it just begins but it really ends now
I'm tryina solve the pain but I don't know
I'm always on the grind, I'm always on the grind
I can see my future crystal clear
I'm standing for myself, so it's no one that I fear
I'm waiting on my time, I'm standing right here
We're about to take over,
Cause you know it's our year, our year

Big bro home, 2012 we tryina get it,
A new rev from Russia whom to players existence
Family hustlers intimidate the enemy
Go hard for mine to humiliate the ones who envy me
3rd time's a charm, working on a deal now, I'm working
Killing them with 9 vouch, for real how
They in silence, watch how my paper pile
Steady boy flowing, you haters must be... now
Entrepreneur, all type of bizness
Want a brother movie, rose can't wait for that
adventure, can't wait
I won't split you nothing you wasn't involved
Easier said than done, enough problem solved
Don't get mad, I'm the cream of the crum
My bros love me, stay in touch with the block
I've been at it for a while now I need a beverage
Now I swear I need some leverage, real talk

[Hook]

I've been in it for a while
They say it just begins but it really ends now
I'm tryina solve the pain but I don't know
I'm always on the grind, I'm always on the grind
I can see my future crystal clear
I'm standing for myself, so it's no one that I fear
I'm waiting on my time, I'm standing right here
We're about to take over,

Cause you know it's our year, our year

I had my share of trouble, diversities and the struggle
But now the worst is over and all I see is the chauffeur
Ask my little brother, the money is all I go for
Popping bottles toast to the fact that we got it solved up
Hold up, who you know do it like I do it
Spit ross... that money get it like I'm Jewish
Then the blue is all... cavali and cardigans
They probably party here, they body is outta here
Jean Paul Gardier, cologne all in the air
So when I walk in the room, the aroma follows me there
Ride's gotta be rare, stones gotta be clear, welcome to
the top tier
Yeah, it's our year!

[Hook]

I've been in it for a while
They say it just begins but it really ends now
I'm tryina solve the pain but I don't know
I'm always on the grind, I'm always on the grind
I can see my future crystal clear
I'm standing for myself, so it's no one that I fear
I'm waiting on my time, I'm standing right here
We're about to take over,
Cause you know it's our year, our year.
