I sometimes wonder why, all the flowers have to die.
I dream about you at night, summers come and gone.
And the nights they seem so long.

Chorus:

Come on over tonight, come on over.
It's gonna be a cool night, just let me hold you by the
firelight.
If it don't feel right you can go.

Oh and the cool night, brings back memories of a good
life.
When this love was not so old.

Oh I, won't talk about the past, how love suppose to last
forever.
And you don't have to take a stand.
Lay out in your plans.

Chorus:

Come on over tonight, come on over.
It's gonna be a cool night, just let me hold you by the
firelight.
If it don't feel right you can go.

Oh and the cool night, brings back memories of a good
life.
When this love was not so old.

Come on over tonight, come on over.
It's gonna be a cool night, just let me hold you by the
firelight.
If it don't feel right you can go.

(Repeat 2x)

On a cool night, let me hold you.
On a cool night, just let me hold you by the firelight.
If it don't feel right you can go.
