There is a light and we signal
We signal with a light
There's a path where the hill goes
Where there's no one else alive

We can dance off into the night

Will our hands feel the tingle
Of an adolescent fright?
Will our shoes feel our heels grow
Right into a bigger size?

We can dance off into the night
Please let's dance off into the night

We'll tell the dark we have arrived
The stars are smitten with our eyes
On this night they are aligned
To guide the light that is our life
