Dun dem now
Bun dem out
We don't want dem seed to sow

Dun there kind
Stun their mind
They'll pay to death for all of your crimes

informer fi dead

Para mi gente
One to your heart
And one to your head
Straight

i vowed to rep my endz till im layed to rest n my life
does end

I vowed to support my brethren cos it so hard to raise
real women n
Men

I vowed to do this my way
I vowed and you know were straight from day
we str8 from day

Never been one of your kind
Wont locate here what you seek to find.

Don't look cos we aint similar
mans from these ends are far from regular
