U act so pure  
But your rotted inside  
We see threw  
Everything you try hide  
We don't support  
Informer or spy  
Dun the lot of dem  
For their dutty badmind.

Dun the lot of their kind

Murderous mindset cos you need but can't get.

Bun the whole of their kind

Burning

Sub conscious is killing with paro thoughts in your head  
Its twisted your inside and we won't forget  
cross angry miserable we live in this state  
how we deal cos you are our worst threat

These Streets are hungry for your soul  
Try your hardest to reach your goal  
But life seems to want to see we fold  
So I'm a stay cross angry and miserable
