Venom flows through every cell  
Burn, destroy, murder death kill.  
Won't stop till earth becomes hell  
fires a blaze hate cant prevail.

Fight so your seeds wont grow  
breathing this fear in the air.

Worlds will collide ,  
dust will fill skies,  
We'll all suffer if we beleive the lies

We learned to stand and fight  
cos freedoms loosing its right  
when it dies no one will  
sever themselves from the ties

My eyes are streaming  
for all the families left grieving  
The innocent, the sufferah,  
used as sheilds for the demons.

They do want to merk our soul  
They dont care if struggler die or fall.

Soldados en esta guerra
