Whats to prove,
youth cold
stuck with no room to move
Nothing changes,
Songs of pain,
just to different grooves

The facts. List of dead grows this they cant disprove
Hard times came our way and never looked likely to
improve

Ahorra vivimos asi
Vida aparte de ti
LBU familia
Nunca seamos parte de ti

stab attack town
Gun point robberies
Drugs and rape and racial hate.
Poor get poorer the rich flaunt and waste
families cant find something to taste
Paedophiles, protected by law
While yoots jailed for shotting a draw
Politicians demons amonst men
see what you done look in their eyes.
Made afraid to live but not afraid to die
