I think you're overweight. I know you well enough to say
Cos we go back a really long way
We used to share in magic dreams of what we wanted
to be
But now I think you're obscene

Still I support you in every way, tomorrow like today

I want you to want me, cos you know that I need you
We both know that it's true, it's true, it's true ohhh
The trouble that you get in, I will always back you
And I don't really want to no more no more no

And everybody's judging you and cos of that they're
judging me too
But I'm just following you
I've got the personality but you're much bigger than me
You're a bully and all can see

Still I support you in every way, tomorrow like today

I want you to want me, cos you know that I need you
We both know that it's true, it's true, it's true ohhh
The trouble that you get in, I will always back you
And I don't really want to no more no more no

We go back a long way
I say, I say we go back a long way

I like that you want me and it shows that I need you
And we both know that it's true, it's true, it's true ohhh
The trouble that you get in, I will always back you
And I don't really want to no more no more woohhh

I want you to want me cos you know that I need you
We both know that it's true, it's true, it's true ohhh
The trouble that you get in, I will always back you
And I don't really want to no more no more no
