You want me to go so I'll go, just let me collect my coat  
And I'll be gone for good, because I think that I  
probably should  
I know you know what you have done, she just smiled  
and she looked away  
I'm not so sure that I had fun  
You don't know me at all, no, you don't know me at all  
Cos you think that I'm doing well when I'm just about to  
fall  
You want me to leave so I'll leave, just let me collect my  
hat  
I won't come back at all cos you think you're too cool for  
school  
Why can't you see what you have done? She just stood  
up and walked away  
I think your sister is more fun, ha ha ha!  
You don't know me at all, no, you don't know me at all  
Cos you think that I'm doing well when I'm just about to  
fall

You don't know me at all, no, You don't know me at all  
You don't know me at all, no, You don't know me at all  
You don't know me at all, no, You don't know me at all  
You don't know me at all, no, You don't know me at all  
You don't know me at all, no, You don't know me at all

Cos you think that I'm doing well when I'm just about to  
fall  
You want me to go, so I'll go
