Well you kissed the lips of evil  
Two months it's all the same  
I begged for this mans approval  
Like all the rest you'll die in vain  
Well sit down with thoughts alone now  
Off my chest these lyrics came  
Your words they eat right through me  
Heartbreak's your favorite pain

The tears we've cried  
This love has died  
Your by yourself here tonight  
It's what we hide  
With every lie you're by yourself (here tonight)

I think of it anytime I touch you  
Every time I hear his name  
I never let my fucking walls down  
For all of this you are to blame  
Sit down we wont take long now  
Off my chest these lyrics came  
Your words they eat right through me  
Heartbreak's your favorite pain

The tears we've cried  
This love has died  
Your by yourself here tonight  
It's what we hide  
With every lie you're by yourself (here tonight)  
The tears we've cried  
This love has died  
Your by yourself here tonight  
It's what we hide  
With every lie you're by yourself (here tonight)

We stitch these wounds(x4)

We stitch these wounds  
The tears we've cried  
This love has died  
You're by yourself here tonight  
It's what we hide

With every lie you're by yourself (here tonight)

The tears we've cried  
This love has died, (I'm by your side)  
You're by yourself here tonight  
It's what we hide with every lie  
You're by yourself (here tonight)

Liar(x13)
