Before this love ends tell me where to begin

I remember the day we met

In that driveway a lifetime ago

I knew in that moment

A greater love than I had ever known

I fell so hard and so fast

I never stood a chance

I never knew the days we had

Were gonna fly by so fast

I remember the day you left

In that bedroom a lifetime ago

I knew in that moment

I lost the greatest love that I'd ever know

The smell of your skin

The agony of our final kiss

The thoughts spinning in my head

How could it have come to this?

Dont turn your back and walk away from me

Before this love ends show me where to begin
