"With Or Without You"

Visit "[With Or Without You](#)" on MotoLyrics.com

Lost in the silence and I forget the violence of your caress
Emptiness is willing to understand the feeling of your success
Hide away your weakness, behind your finer secrets, I'll never know
Blow away your sadness and hope that on the kindness my love will grow...

So put your arms around me!
Cause all I want from you is hope to live
With or without you

So put your arms around me!
Cause all I want from you is hope to live
With or without you

Never too demanding, the hope of understanding for you my dear
Out of my devotion and into meet emotion, real flesh by fear
Show me all your colours, while you're just sending powers on turning red
Help me find the meaning, cause now you are beginning to fade away...

So put your arms around me!
Cause all I want from you is hope to live
With or without you

So put your arms around me!
Cause all I want from you is hope to live
With or without you

So put your arms around me!
Cause all I want from you is hope to live
With or without you

So put your arms around me!
Cause all I want from you is hope to live
With or without you
