Because of you I'm never alone
I walk on the streets and I peek on my own
Because of you the day looks brighter
The clouds ride away and you're lifting me higher

Ok ok ok ok
Poppin like you'll never know
Hopin on a train to go
Wherever whenever thing is falling in line like dominos
Typing like I'm Kerouac
Know exactly where I'm at
Found my purpose in this circus
Of Bonnified brainiac
It is no problem
Spit saliva
Once again there is need to pretend to let go when it
turns out awesome.
Without you it ain't working,
Gotta be together and that for certain
Grab my hand, get in the van and close the curtain.

Because of you I'm never alone
I walk on the streets and I peek on my own
Because of you the day looks brighter
The clouds ride away and you're lifting me higher

I think I fell in love,
She fell for dirty dog
I'm used to drinkin' with the boys and making noise
in clubs.
And now we push and shove
Hope she don't walk away
Here come the clouds, I think I smell rain

There's no turning back from here can't you see
we're almost there
Travel miles across the sea all to find the road to me
Oh my love my love don't fold
Nothing's out that you should know
Hits the bottom without you
To finding oh it's true

Because of you I'm never alone
I walk on the streets and I peek on my own
Because of you the day looks brighter
The clouds ride away and you're lifting me higher

I think I fell in love, she fell for dirty dog
