He is the master of the ultimate empire
He set a nation a victim of his fire
They hold a secret in their hand
And he will ascend a power command

Burn the ground,
He walks on
Burn the ground

He was screening from a violent combination
He brought destruction and massive termination
Now here's a second chance for you
But will you live, to see him thrill

Burn the ground,
He walks on
Burn the ground
Burn the ground,
He walks on
Burn the ground

He is the master of the ultimate empire
And now a nation is a victim of his fire
They hold a secret in their hand
And he will ascend a power command

Burn the ground,
He walks on
Burn the ground
