All that want is my flesh  
Leaving me haunted tonight  
My very soul has to bleed  
They never get me eternity  
Calling...

Calling in the right moment  
Just be strong, believe!  
Shock the nations, let taboos fall  
Swear it and see!  
Wake up and I'm a spirit in your head  
Inside your soul, I'll take you there  
Sometimes it hurts? I know, stand it  
Dig down deep and feel!

I'm a memory, I stand to my word

I'm a memory... I'm a memory  
Go, find me, I'm from the past  
You're worried and so depressed  
Don't tell me words that they'd say  
I'll be your voice to compensate it

Calling in the right moment  
Just be strong, believe!  
Shock the nations, let taboos fall  
Swear it and see!  
Calling in the right moment  
Just be strong, believe!  
Throw your blinkers, let the doubts fall  
Swear it and see!
