Come on and let me out!  
Crawl you crawl you crawl you crawl for life,  
Gotta crawl you crawl you crawl you crawl for life

Unjust voice calling you wiles you far away  
Depression's reaction to your flagellant vein

Swallowing false preaches with no counterweigh  
Brainwashin, delusion, empty fairy tales...

Crawl you crawl you crawl you crawl for life,  
Gotta crawl you crawl you crawl crawl for life

Drug yourself with antinomy!  
High-priced things will alter your way.  
Enjoy perfect Ignorance  
While your angors darken your mind  
Infest your mind!

You're crawling  
Crawl you crawl you crawl you crawl for life,  
Gotta crawl you crawl you crawl you crawl for life  
Don't let them to suffocate  
Overwehlm you manipulate.  
Keep your distance strife for your life  
I'm your aidence so come let me  
Out
