There's nothing I want  
but money in time  
Million dollar bills  
in a tick tick tick tick  
There's nothing more cruel  
than only nine lives  
A limit in spite  
will do the trick trick trick trick

We can leave the house,  
lead the party,  
let the people know  
Go drown the colors of our minds  
and watch the cars go

There's nothing as fun  
as coming untied  
And running with the kids  
in the park park park park  
There's nothing that's hurt  
like letting you go  
It's like a bird's eyes  
in the dark dark dark dark

We can leave the house,  
lead the party,  
let the people know  
Go drown the colors of our minds  
and watch the cars go  
It's not about just being out  
with all our people  
Cause we can get in trouble  
just by going free flow

And now I'm letting you know  
and now I'm letting you know  
And now I'm letting you know  
and now I'm letting you know
