Close your eyes  
Make a wish  
Feel the dream come true  
With open hands  
And open arms  
This one, one determined heart

To see you smile  
To light the world  
What you give is the perfect gift  
Strength and love and hope for us  
With one, one determined heart

Chorus:  
Somewhere in a gentle rain  
We will all be brave  
And find the will to fly  
My wish is to cherish you  
And only you show me  
With one determined heart

Beautiful you change the world  
And I have seen a miracle  
The way you shine like a billion stars  
With one, one determined heart

Chorus

My wish is to cherish you  
And only you show me  
With one, one determined heart

Close your eyes and make a wish  
With one, one determined heart
