Hey yeah, oh, Â'mmmÂ' baby, oh

WeÂ've had our time of trials and
Tribulations donÂ't mistake me
You broke your promises but thatÂ's ok
IÂ'm not forsaken
IÂ'm here to stay IÂ'm all the way in love with you
You know that
Yesterday was just a day, itÂ's all been left behind us

It wonÂ't be the same if you went away
I know my heart is strong
I am weaker through the evening
So letÂ's just leave this the way it is
I know that we can do this if we try
Try to show each other that love is possible
ThereÂ's the reason why we can be incredible
Letting go of everything thatÂ's happened before
I know you can do this, I know we can try

I know youÂ're searching for someone who loves
And understands you
ItÂ's funny how I need the same thatÂ's why
IÂ'm glad I found you
I know itÂ's easy just to say these words to you so
IÂ'm here to stay no need to rush
We can take it slow

It wonÂ't be the same if you went away
I know my heart is stronger
I am weak if youÂ're not near me so
LetÂ's just leave this the way it is
I know that we can do this,
If we try to show each other
Love is possible thereÂ's no reason why
We canÂ't be incredible
IÂ'm letting go of everything I know
We can do this I know we can try

When there comes a time when we say goodbye
What can I do IÂ'd have to let you go
But in my eyes thereÂ's no compromise

I know we can do this if we
Try, try baby, oh yeah
We can, we can, love one another, baby yeah
I know we can do this I know we can try
There's no reason baby, oh yeah
There's no reason

Chorus

I'm letting go of everything, oh yeah
I know we can do this, I know we can try
Try to love each other
Love is possible there's no reason why
We can't be incredible
I'm letting go of everything that's
Happened before
I know we can do this I know we can try
