Ocean of stars, why I've gone so far?  
I miss my home  
I hear those engines drown!  
The runway is set, let's move this fucking jet  
I have to go despite our slick and snow

Chorus:

Just a late night house live in Dallas!  
With their portrait hung in velvet  
Just a three not roll at the palace  
And I never in my life feel so lone!

I work for the show, stars will come and go  
I work the lights, I even sweep so nights.  
But now I'm host, that's worthy of a toast  
Don't you agree, my little honey bee?

Chorus:

Just a late night king live in Dallas!  
With their portrait hung in velvet  
Just a three not roll at the palace  
And I never in my life feel so lone!

You're so far away from all these wonders  
Even as the roulette spins  
I was a escorted 17 miles  
I came upon all when it's bend.  
Even in dreams of life still you call  
Through the tall grass and them wings  
I know I'll never be the same on this road  
The cavalry!

Chorus:

Just a late night house live in Dallas!  
With their portrait hung in velvet  
Just a three not roll at the palace  
And I never in my life feel so lone!  
And I never in my life feel so lone!
