"No One To Call"

I'm making a call to any line that's open
Statics always rolling on the ways
So long ago my radio heart go broken
Now the sounds I wanna hear they never there.

Is the real line on?
Can you play that song?
are you playin' it all?
'cause I've got no one to call?
No one to call.

Children without in federy mile I'm going,
Pushing hours on my way back home.
I've been searching with the compass broken
Now I'm looking for a song to call my own.

2 x Chorus:
Is the real line on?
Can you play that song?
are you playin' it all?
'cause I've got no one to call?
No one to call.
