Pardon me, I didn't mean to call  
Just can't help the way my fingers fall  
Don't blame me, blame the memory of old numbers  
Old numbers you never forget  
Try to replace them but you haven't yet  
They just keep adding up  
Seems you'll always be stuck with old numbers  
Hadn't spoken in a long, long time  
What used to be is no longer mine  
No, I don't have you, but I'll always have your numbers  
Been nice talking but I should let you go  
Don't wanna end up with the dial tone  
'Cause I'll take another look at my little black book of  
old numbers  
No, don't blame me, blame the memory of old  
numbers
