"Only A Clown"

Visit "[Only A Clown](#)" on MotoLyrics.com

Everyone came, lemons lit the way
And they all brought bottled wine
Guess you could say
That I came alone, and I thank you
For beeing so kind

[Chorus]

Put your record on, let the band play the song
All about love and believing
Good for you, cause if that's true
Then it's only a clown, misleading

At the end of the night
All we had has melted down
You're picking up after everyone
Remember I came and went mad
No one says goodbye to a clown
They only laugh when he's gone

[Chorus]

Put your record on, let the band play the song
All about love and believing
Good for you, cause if that's true
Then it's only a clown, misleading

You got with who you want
Baby what's the matter
You can have it all
When you need, only save it later

[Chorus]

Put your record on, let the band play the song
All about love and believing
Good for you, cause if that's true
Then it's only a clown, misleading
Then it's only a clown, misleading
Yeah I'm only a clown, misleading.
