"New Black Tooth"

Charcoal mother will you wear me out
Silver dollar rash
Rain on the lens
Maybe I'm over
The ocean couldn't even make you wet
Stand down sailor send your brass rib home
Save it for a later leave
Heaven must have spit you out
With sandstorm prayers and peeling bells
Dim little voice
Jet entrails
Out like a switch

Silver dollar rash
Gonna make you wiser
Got a new black tooth
Gonna make you wiser
Cooked in orange and gin
Your winter coat all summer long
Rain on the lens
Dim little voice
Out like a switch
Cooked in primer and rust
Glass plums
Dead bums
Mail your brass rib home...
