I never saw this coming
I think I've got so much more to say
I'm sure will figure it out, oh some day

Love you right... will stay
... can be
I'm falling on... bounce

I can't believe that it all end this way
It was seven or nothing

And believe me you can't
When is all stand and found
We're in a mission now
And you'll never mean a thing to me
There's 5 years what's on
I guess I'll just have to leave and let it go

You took all that I shut
And then you took me from more
No one makin' it stand

I'll catch you... so me
I'm fallin on so faith
A couple... and slay
River... nothing
Never lie...

When is all stand and found
We're in a mission now
And you'll never mean a thing to me
There's 5 years what's on
I guess I'll just have to leave and let it go
Let go, let go
