You know it's too soon to say goodbye  
Turn up the volume for one more night  
Drown out the world and just let it fly  
Just know you're not alone  
This song goes out to the ones who cry  
To let you know that we're by your side  
So grab somebody and hold them tight  
Just know you're not alone  
Because I Believe  
That we can stop this tragedy

Don't give up on me 'cause I won't give up on you  
All I wanted was the chance to see this through  
You'll survive

To every kid who's ever felt down  
We'll start a riot and burn this town  
Cuz all you need is somebody close  
Someone you can't let go

Because I Believe  
That we can stop this tragedy

Don't give up on me 'cause I won't give up on you  
All I wanted was the chance to see this through  
You'll survive

SO RAISE YOUR VOICE AND SING IT LOUD  
WE'RE NEVER GONNA LET YOU DOWN  
WE'LL ALWAYS BE THERE BY YOUR SIDE

Don't give up on me 'cause I won't give up on you  
All I wanted was the chance to see this through  
You'll survive
