I saw you at the start,
I'll meet you at the end,
I know I can fix your heart
But I'll probably break all again.

It's nice to see it on your face,
I know it's real, it's got that grace.
Got a running chance to give up on the chase.

Oh take me to another place where
We can be like everything we'd planned
We can just be crazy kids and maybe
Baby you can hold my hand.

Dunno why it's so hard,
Why times I cannot keep.
I need to feel your heart,
So I can fall asleep.

Skin to skin, back on my chest.
I leave my heart where it feels best.
We'll dream in circles to find what's next.

Oh take me to another place where
We can be like everything we'd planned
We can just be crazy kids and maybe
Baby you can hold my hand.
