

Camber **"Spirit Gum"**

Visit "[Spirit Gum](#)" on MotoLyrics.com

Remember that night. secrets said. you doubted you'd
Always want me there. remember that time. fears were
fed.

I chased you up to the street. one of our lows. how
could

I make you feel that way. but the road will rise for us.
The sun will shine for us. like glue it's stuck to us.
Remember that place. shields were shed. I wish we
could

Close our eyes and be there. remember that day. we
looked

Dead. we said all there was to say. heaven knows. how
did

We live another day. but the road will rise for us. the
Sun will shine for us. like glue we're stuck to us.
Remember that night. curled in bed. we said all there
was
To say
