"Love Can Wait"

Visit "[Love Can Wait](#)" on MotoLyrics.com

If love is a feeling then I don't want it
You'll take it and make it into more
But if you want something that really means something
I'll show you what love is really for
And if you want me to say
You don't have to change
I've been waiting patiently
Well love can wait for me
Love can wait for me

I think I see clearly but everyone tells me
That you and I were meant to be
But don't tell me baby
That we're going somewhere
Cause somewhere is not where I wanna be oh
And if you want me to say
You don't have to change
I've been waiting patiently
We'll love can wait for me
Love can wait for me

Alright
Come one
We all know what you got

Well you don't know where love is
My heart is losing all it's faith
But there's this sound in my head
I'ts just sayin
Won't you wait for me
Will you wait for me

And if you want me to say
You don't have to change
I've been waiting patiently
We'll love can wait for me
Love can wait for me
