The moon is in the tree
The moon is in the tree
And my shit turns to water
And my shit turns to water
I get the taste of ash
I get the taste of ash
Every time we kiss
Every time we kiss
And I'm already gone
I'm already gone

A desert in my head
A desert in my head
Each time we touch
Each time we touch
I get the feel of dust
I get the feel of dust
Cover me by degrees
Cover me by degrees
And I'm already gone
I'm already gone
