Paul Kelly (Mushroom Music)
I have the moon in my bed
Every night down she falls
I have the moon in my bed
I had nothing, now I have it all
And I have the sun in my heart
When I rise by her side
I have the sun in my heart
Even through the darkest night
She can save me from myself
Make me feel like someone else
When I hardly know myself
I have the moon in my bed
I have the sun in my heart
I have the stars at my feet
I have the moon in my bed
