What time is it? It must be late. I heard you coming in, padding down the hallway. You didn't want to wake me, did you? Where've you been? It's late. What's the matter now-pussy got your tongue? I heard the water running. Did you think I was asleep? I heard the water running. Whatcha want to take a shower for this time of night? Huh? It's late. Tell me now, what's wrong-pussy got your tongue? You slide in next to me-all soapy. I can still smell her though. That bitch! Look at me now. Don't touch me! Look at me now. Look me right in the eye. Spit it out. Come on. What's the matter now-pussy got your tongue? Did she come? Did she come good? Did she come like me? Is she sweet like me? Nice like me? That bitch! Did she like your jam? Who's been tasting my jam? I heard the water running. What's the matter now-pussy got your tongue? You didn't want to wake me, did you? You're so quiet. Look at me now. Look me right in the eye. Don't touch me! You came in like a thief I heard the water running. What's wrong-pussy got your tongue?
