Verse 1:

Vertical lines run across my spine
Your fingernails will leave a permanent mark this time
I think I'm in love but your playing rough
How could you turn to me and say "Oh baby that's
tough"?

Lead In:

But what can I do? (What can I do?)
To change your point of view (Your point of view)
To make you see that all the lies you told me were true
Ought-oh, Ought-oh, Ought-oh I'm so...

Chorus:

Caught up in you (Caught up in you)
Never knowing what your gonna do I find myself so
Caught up in you, Caught up in you

Verse 2:

With Cherry red lips, voluptuous hips
You're really making me wanna go for a dip
Into the sea, love is drowning me
Your kiss just sets about a million molecules free

Lead In 2:

Yet I don't know why (I don't know why)
There's not a cloud in the sky (cloud in the sky)
I'm dizzy falling through the blue that spins in your
eyes
Ought-oh, Ought-oh, Ought-oh I'm so...

(Repeat Chorus)

Ad-lib:

I find myself so caught up in you
I find myself so caught up in you
Like a painting I've been drawn into
I find myself so caught up in you!
