Verse 1:

You hold me close it's the middle of the night
I wake up dreaming baby everything's alright
No one loves me more than you
You let me be what I want to

Chorus:

You make me happy, real damn happy all the time

Verse 2:

It's so good just being by your side
I'm so proud of the love we don't have to hide
No one loves you more than me
You're my favorite company

Chorus:

You make me happy, real damn happy all the time

Bridge:

I want you to know when you hurt, I hurt too
There's nothing on this wide earth
That could keep me away from you!

Whenever I call you, you're there in the blink of an eye
Feels like forever I've known you
You're the love of my life!

(Repeat Chorus)
