I don't want to be the one  
To tell you to fuck off.  
I don't want to be the one  
To tell you you're wrong, when you're wrong.

What I'm trying to say,  
What I wish I could get out,  
Is that when you're gone  
There's nothing to write songs about.

I don't want to be the one  
To say get your head out of the clouds  
Cause my head is up there too,  
And I like having you around.

What I'm trying to say,  
What I wish I could get out,  
Is that when you're gone  
There's nothing to write songs about.

But I will write and I will sing.  
If you make it loud you can't hear anything.  
Make it loud so I can scream.

I will write and I will sing.  
If you make it soft it's not worth anything.  
Make it loud so I can sing  
What I want, what I want, what I want.

I don't wanna be the one  
To tell you to fuck off.
