Had the kind of day that makes me just want to sleep  
Had the kind of night that really makes me think  
Waking up shouldn't be this hard  
But I got up, paced around my small apartment  
Thought about how if luck is what you make it  
Why does mine never seem to turn around?  
Cause the people you love have left me behind  
When I think I'm ahead, I'm just next in line

Without you, I'm a mess  
Can I get myself out of this?  
When I'm with you, I'm a mess  
Can I get myself out of this?  
Can I get myself, get myself out?

Never got along with living life the way I want  
And my best friends, I don't talk to them  
I've got laundry piled high  
I'll let it sit with the reasons why I won't ask you to come  
back  
Cause the people I love have left me behind  
When I think I'm ahead, I'm just next in line

Without you, I'm a mess  
Can I get myself out of this?  
When I'm with you, I'm a mess  
Can I get myself out of this?  
Can I get myself, get myself out?

If I could just spend my day in bed  
Pretend that this is what I wanted  
You were fearless like we all were when we were young

Without you, I'm a mess  
Can I get myself out of this?  
When I'm with you, I'm a mess  
Can I get myself out of this?  
Can I get myself, get myself out?  
Can I get myself, get myself out?
