Beneath the ground  
Lie the labs of men who  
Who do play god  
Hidden leaders  
Chosen for their loyalty  
Horrors grown from weed

Beneath the grow lights thou shall rise

Marijuana users abducted more frequently now  
Habitual and recreative alike  
Ignored like losers, no shred of evidence found  
Media black-out, none to put up a fight

Beneath the grow lights thou shall rise  
Rise

The men that I see, coldly looking at me

Above, gamma beams glowing with their toxic  
radiation  
Below, foulness of experimental stem-cells and shit  
Panic, your veins pumping with a green and sticky fluid  
Terror, transforming, arise a budding creature  
Who or What have you become?

Horrific sight beneath their eyes

Beneath grow lights though shall rise
