Massive monuments of black stone  
Servants of the ancient green gods  
To be wiser, mind expansion  
Raising the plant of the gods inception  
Into their tomb, you'll rot away  
Rot to feed the wicked weed of decay  
Massive vines of weed  
Sadistic reefer worship  
Tribute is paid into it's name  
Grown alone by blood this herb is made  
No one must know or to utter aloud  
Hooded masses and demonic crowds  
Reefer stashed place  
Heretical rites with a sickle knife  
Madly butchered human sacrifice  
Reefer stashed place  
Total temple hot-box  
Evil fucking your thoughts  
Bodies grinded  
Mixed with shit  
Shovel the parts into the pit  
Indoor is grown to make the demons proud  
The essence of weed we've crowned  
No one must know or utter aloud  
Hooded masses and demonic crowds  
Reefer stashed place  
Heretical rites with a sickle knife  
Madly butchered human sacrifice  
Reefer stashed place
