Too stoned to realize this terrible mistake,
You have swallowed and now it's far too late.
This impulsive fool brought on the wretched stool
Causing only crippling pain, these dreadful seeds
remain.
Guts begin to ache, how much more can you take?
As your brain begins to bake, constipation now sets in.

[Chorus:]

Constipation, intestinal regurgitation,
Rectal prolapse takes effect in all anal annihilation,
Degradation, embarrassing situation,
Marijuana bursting forth, internal germination.
Intestines, swelling, burning, rotting, hurting hell,
Flatulence.

Shit, shit of pot seeds,
Shit, shit, shit, shit, shit of pot seeds,
Heinous loss of control, dripping anus, shredded
asshole.
Slime of butchered butthole which was torn from the
inside out.
Shit of pot seeds.

Piles of seeds, your death they need, ever exiting to
grow healthy.
Sick milky spray without delay, explosive brown array.
Frantically clawing your way to a bathroom, your colon
is stretching, tearing apart,
Rectum is blownout, a spectacular display of cannabis
sativa bowel movement botany.
Seeds are pouring out amidst the blood and greasy
feces.
Hitting your brains without a doubt, the only thing solid
is Maryjane's grain.

[Chorus]

Eternity of filthy feces,
Toilet bowl filled with wretched nug dook.
