Bring back summer rain  
I'll store it again in my heart  
Forever to sever a hole in my head  
'Cause I'm seeing red

Bring back summer rain  
I'll store it again in my heart  
Forever to sever a hole in my life  
I'm doing time

But we want the same as everyone else  
But we're not the same  
But we want the same as everyone else  
But we're not the same

So bring back summer rain  
I'll store it again in my heart  
Forever to sever a hole in my life  
'Cause I'm doing time

Yeah bring back summer rain  
I'll store it again in my heart  
Forever to sever a hole in my head  
Cause I'm seeing red

And we want the same as everyone else  
But we're not the same

We want the same as everyone else  
But we're not the same.

We want the same as everyone else  
But we're not the same.

We want the same as everyone else,  
But we're not the same.
